Description :

Prsentation de l'diteurBest-known for his seminal sf novel Neuromancer, William Gibson is actually best when writing short fiction. Tautly-written and suspenseful, Burning Chrome collects 10 of his best short stories with a preface from Bruce Sterling, now available for the first time in trade paperback. These brilliant, high-resolution stories show Gibson's characters and intensely-realized worlds at his absolute best, from the chip-enhanced couriers of "Johnny Mnemonic" to the street-tech melancholy of "Burning Chrome."Prsentation de l'diteurBest-known for his seminal sf novel Neuromancer, William Gibson is actually best when writing short fiction. Educated in the USA, he emigrated to Canada in 1968 and retains dual nationality. Gibson began writing in 1977 and burst upon the literary world with his acclaimed first novel, NEUROMANCER, the book that launched the cyberpunk generation, and the first novel to win the holy trinity of science fiction, the Hugo, Nebula and Philip K. Dick Awards. Although best known for his early cyberpunk novels, Gibson's work has continued to evolve over the ensuing years, always casting an astute critical eye on modern societal trends. In 1999 The Guardian praised him as 'probably the most important novelist of the past two decades'. His most recent books include ZERO HISTORY and THE PERIPHERAL.
